

GREGORY SALAZAR

SOFTWARE ENGINEERING STUDENT

Experience developing scalable applications using Java, Python, and SQL. Proven track record of leading Agile teams, designing robust REST APIs, optimizing databases, and integrating AI workflows.

Featured projects

- **Gregory's Kitchen - Web-based Management Platform** - 3 months
 - **Responsibilities:** Developed the full-stack MVC web architecture using Java, Jakarta EE Servlets, JPA, and RESTful endpoints.
 - **Achievements:** Reduced MySQL response time by 35% by optimizing the database schema.
- **FITEC - Distributed Management System for Gyms** - 4 months
 - **Responsibilities:** Designed the SQL Server distributed database architecture using 2PC transactions.
 - **Achievements:** Guaranteed 99% ACID consistency across nodes with bidirectional synchronization.
- **EconoMe - Personal Finance Management System** - 4 months
 - **Responsibilities:** Led an Agile/Scrum team using Azure DevOps, Maven, and PostgreSQL.
 - **Achievements:** Delivered 100% of the features using Azure CI/CD pipelines.
- **BLACKJACK AI - AI Card Detection System** - 4 months
 - **Responsibilities:** Implemented a computer vision pipeline using YOLOv8 (PyTorch) and neural networks with TensorFlow/Keras.
 - **Achievements:** Reduced inference time and latency by 70% through CUDA and GPU optimizations.
- **Coati's Coffee House - Inventory Forecasting and BI Dashboard** - 2 months
 - **Responsibilities:** Built a BI dashboard using Python, K-Means, Apriori, and time-series forecasting.
 - **Achievements:** Automated restocking alerts by integrating predictive analytics with machine learning.

Supplementary Training

- **Courses**
 - **Intermediate Python for Developers - DataCamp** - Aug 2026
 - **AWS Cloud Technology and Services Concepts - DataCamp** - Aug 2026
 - **Data Mining - Great Learning** - Jul 2026
 - **Introduction to Power BI - DataCamp** - May 2026
 - **Cybersecurity & CompTIA Security+ - Udemy** - Oct 2025
- **Events**
 - **Third place in Liga GP+ (PMI LATAM)** - PMI Project Management - Feb 2026-Jun 2026
 - **Finalist in Deuna! Challenge (Interact2Hack)** - Merchant Retention and Churn Predictive System - Apr 2026

Experience

- **Viveres P&P - Sales Customer Service** - Feb 2021-Nov 2022
 - Developed effective communication, agile problem-solving under pressure and collaborative work.

About me

8th-semester Software Engineering student at Escuela Politécnica Nacional. I am looking to join a technology team to apply my technical stack, contribute to the development of solutions, and foster my professional growth.

Education

Escuela Politécnica Nacional

2022 - Present | Software Engineering

Skills

- **Programming Languages:** Java, Python, JavaScript, PHP, TypeScript
- **Web Development:** HTML5, CSS3, Node.js, Basic React and Vue, Astro, Bootstrap, Tailwind, Angular, GraphQL, REST APIs
- **Databases:** PostgreSQL, MySQL, MongoDB
- **Infrastructure & CI/CD:** Heroku, Docker, Jenkins, Git, Azure DevOps, Scrum
- **Soft skills:** Technical Leadership, Teamwork, Effective Communication

Languages

English (Intermediate) Spanish (Native)
